

# EGYPTIAN PROJECTS OPERATION & MAINTENANCE

## Who We Are

We are **EPROM** a leading Egyptian company in the petroleum sector, established in 2002 under the Egyptian General Petroleum Corporation (EGPC). As the only company in Egypt whose core business is O&M services in the energy sector, we deliver reliable, high-quality solutions that support long-term operational excellence.

## Vision

To be the recognized and trusted partner in energy sustainability and operational excellence, leading the transformation of Energy related industries across Egypt and Worldwide.

## Mission

To deliver integrated operation, maintenance, and project management services for energy-related industries. As one of EGPC's technical arms and a leading Operation & Maintenance provider, we empower clients with safe, efficient, and innovative solutions, utilizing advanced digital platforms, leading-edge engineering technologies, and a robust Integrated Management System that drives quality, safety, and sustainability. We achieve this through a commitment to integrity and operational excellence, delivered by our highly skilled and dedicated workforce, while supporting economic and sustainable development within the communities we serve.

## Field of Services

Refineries

Petrochemicals

Gas Plants

Marine Terminals

Fertilizer Companies

Tanks & Storage  
Facilities

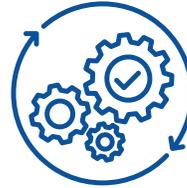

## Type of Services

**O&M**

**Technical Support  
Services**

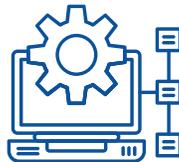

**Project  
Management**

**Integrated HSEQ  
Management  
Systems**

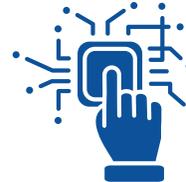

**Process Safety  
Management  
Systems**

**Asset  
Integrity  
Management**

**Energy  
Efficiency**

**Digitalization**

**Training**

## Operation

Targets operational excellence by optimizing processes, minimizing downtime, and enhancing efficiency through resource optimization and cost control. Ensures consistent product quality by sustaining high uptime, and applying effective maintenance, performance evaluations, and advanced process controls.

## Maintenance

Aims to enhance asset performance through risk-based maintenance to extend asset life, optimize resources, and improve efficiency, minimizing equipment failures and maintaining a zero-incident work environment. Key objectives include reducing maintenance costs and increasing the mean time between failures through a comprehensive maintenance plan, implementation of a Computerized Maintenance and Material Management System (CMMMS), and conducting structured personnel training.

## Technical Support Services

**Technical  
Consultation  
Services**

**Engineering  
Services**

**Licensors & Vendor  
Handling**

**Tenders  
Preparation &  
Evaluation**

**Scheduling & Linear  
Programming**

**Catalyst Handling**

**Support Clients for  
ISO Accreditation**

**Expert Staffing  
Solutions**

## Project Management

**Basic & Detailed  
Engineering Review**

**Tendering &  
Procurement  
Support**

**Construction  
Activities  
Supervision**

**Pre-Commissioning,  
Commissioning, Start-up  
& Performance Test**

**Warranty Period  
Management**

## Integrated HSEQ Management Systems

**Occupational Health &  
Safety Management  
Systems**

**Environmental Management  
Systems**

**Quality Management  
Systems**

## Process Safety Management Systems

We help process-based industries proactively manage hazards, comply with regulations, and maintain safety excellence.

- Perform a gap analysis against applicable national and international standards and industry best practices
- Develop or enhance a Process Safety Management (PSM) system tailored to your operations
- Conduct in-depth compliance audits, including document reviews, site inspections, and interviews
- Facilitate or participate in Process Hazard Analysis (PHA) studies (e.g. HAZID, HAZOP, LOPA,..etc.)
- Provide audit findings, risk rankings, and recommended corrective actions
- Support follow-up verification and closure tracking

## Asset Integrity Management

Inspection Services

Reliability & Performance  
Monitoring

Maintenance Planning

ASSET  
MANAGEMENT

## Energy Efficiency

EPROM Energy is a regional leader in sustainable transformation, delivering integrated energy transition solutions that combine advanced technology, professional training, and innovation. The company drives decarbonization, hydrogen integration, and renewable energy adoption in alignment with the UN SDGs and global ESG standards. Through its expertise, EPROM enhances the performance of refineries, petrochemical, and gas plants across Egypt, Africa, and the Middle East, pioneering hydrogen recovery, solar integration, and waste-to-energy projects that enable cleaner operations, higher profitability, and a low-carbon future.

## Digitalization

**SCADA Systems**

**3D Modeling**

**CEMS**

**AI-Powered Safety  
Monitoring System**

## Training

**EPROM Training Center (ETC) is one of Egypt's leading technical training hubs, offers over 300 specialized courses across the Oil, Gas, Process, Power, and Petrochemical sectors.**

**Certified by the Central Agency for Organization and Administration, ETC delivers hands-on, industry-focused programs led by 150+ certified experts, including TOT instructors from the French Petroleum Institute (IFPT).**

**Through capacity building and customized training solutions, ETC helps organizations to enhance workforce competency, boost efficiency, and achieve operational excellence.**

## Mega Projects

Since 2002

# MIDOR

Middle East Oil Refinery

Plant Capacity 160 bbl/day–  
After New Expansion Project  
60 bbl/day

Licensors

Since 2006

# ELAB

Egyptian Linear Alkyl  
Benzene

Plant Capacity 100,000  
Ton/Year

Licensors

Since 2007

# E.Styrenics

Egyptian Styrenics CO.

Plant Capacity 200,000  
Ton/Year

Licensors

## Mega Projects

Since 2009

# ERC

Egyptian Refining Company

Plant Capacity 4.7 Million  
Tons/year

Egyptian Refining Company  
الشركة المصرية للتكرير

Since 2016

# ANOPC

Assiut National Oil  
Processing Company

Plant Capacity 3.7 Million  
Tons/year

ANOPC  
ASSIUT NATIONAL OIL PROCESSING COMPANY  
شركة أسوط الوطنية لتصنيع البترول

Since 2017

# ASORC

Assiut Oil Refining Company

Plant Capacity 33,750 bbl/day

Licensors

Licensors

Licensors

## Mega Projects

Since 2019

# SOPC

Suez Oil Processing CO.

Plant Capacity 500,000  
Ton/Year

Licensors

Since 2023

# AGIBA

Agiba - Meleiha Gas Plant

Sales Gas 27 MMSCFD

Licensors

## Mega Projects

Since 2024

# NNPC

**Nigerian National Petroleum Corporation**

Nigeria's Refineries

- Port Harcourt Refinery (Phase 1 - Old PHR): 60,000 barrels/day
- Warri Refinery and Petrochemicals (WRPC): 125,000 barrels/day
- Kaduna Refinery and Petrochemicals (KRPC): 110,000 barrels/day

## Our Clients

## WHY EPROM?

-  **+23 Years of Experience**
-  **+3000 Employees**
-  **64.7 Million Safe Work Hours**
-  **+150 Certified Instructors**
-  **500,000 bbl/day of Refined Products**
-  **300 ton/day of Petrochemical Products**
-  **27 MMSCFD of Processed Gas**

## Head Office

-  Petroleum Complex, Alex-Cairo desert road – km 19.5  
Alexandria, Egypt
-  Telephone : +2 (03) 3420 258
-  Fax : +2 (03) 3420 259

## Cairo Office

-  182 South El-Tesseen St. Behind Dusit Thani Lakeview Hotel 5th Settlement, New Cairo City, Cairo, Egypt
-  Telephone : +2 (02) 2672 8761
-  Fax : +2 (02) 2672 8766
